

Starting a healthcare business can be an incredibly difficult and expensive process.

At M.O.S, we've created a full service solution that removes those obstacles, making it easy for anyone to own a thriving medical practice - no healthcare experience required.

Our team saves you time & money by taking care of every single aspect of starting your new practice, from company formation to opening.

When our job is done, we hand the reigns over to a fully trained and qualified Practice Manager to oversee day to day operations, allowing you the freedom to be as hands on or off as you like.

The outcome?

A fully operational healthcare practice ready to accept patients in just 90 days. No headaches, no wasted effort -- just results.

WHO WE ARE

Medical Office Setup LLC is a full-service healthcare consultancy specializing in helping new and existing healthcare providers get their practice doors open.

We provide a robust turnkey solution that encompasses everything from insurance enrollments to billing & coding, staffing, HIPAA compliance and every vital detail in between.

Our team lays the groundwork for a solid business infrastructure. Whether it's creating the necessary policies and procedures that will govern your office, or hiring and training a qualified Practice Manager to oversee operations, every aspect of our service is designed to prepare for the successful launch of your new practice.

Our comprehensive blend of industry experience and unparalleled efficiency result in a cost-effective, remarkable solution unlike anything else.

We aim to be a valued partner to every client we work with and we are fully committed to helping you reach your business goals!

*No healthcare experience?
No problem!
Our service is specifically designed to position entrepreneurs, investors and those new to healthcare for success!*

Contact us today to discuss starting your healthcare business.

HOW IT WORKS

Our projects operate on a standard 4 month term. During that time, we find and lease your location, complete all paperwork and healthcare enrollments, integrate necessary systems, hire and train staff and fully set up and design the facility. While the office setup itself may take 2-3 months, additional time is provided to allow for any further training or support you need. The service includes, but is not limited to, the following:

- Company Formation
- Estimated Financial Reports
- Business Plan
- Office Location Services
- Credentialing (Insurance Company Enrollments)
- Licensure
- Staffing (medical and non medical) & Training
- Policies, Procedures & Fee Schedule Creation
- HIPAA Compliance
- Payroll Setup
- Office Design and Décor
- Medical Billing & Coding
- Electronic Health Records set up and training
- Logo Design, Branding and Website Creation
- Basic Search Engine Optimization
- ...and much more!

Pricing

Investments start at just \$45,000 and vary slightly with practice structure. Additional capital will be required during the course of the project to cover basic operating costs such as office space, furnishings, equipment, etc. All additional capital is retained by you and budgeted at your discretion. We work hard to help you save wherever possible, including negotiating lease rates, to help keep startup costs low.
